CF	95.1	SD Along	0.50
SF	20.8	CRV	11.4

Surico Belle is a stunning young female, she has all the qualities demanded by the discerning suri breeder: exceptional locking - independent to the skin, knock out lustre, fineness, and density. She has excellent conformation with a classic suri look of wedge shaped head, suri ears and a bearded chin. Belle also has an impeccable suri pedigree; Her sire – Surilana Parsifal – has a solid history of producing quality offspring, many are well known show winners including Surico Yulia and Surico Trovatore;

Her dam – Surico Clio - has also produced a number of quality offspring, including Surico Orlando (now in Switzerland) and Surico Oracle. This maternal line is prized at the top of the Surico breeding programme and has not been previously offered for sale in New Zealand.

She is a multiple broad ribbon winner including Champion Junior Female at Manawatu 2008. Suri breeders serious about the quality of their breeding program should not pass up this rare opportunity to purchase some of the best suri genetics in the world.

→ SIRE: **SURILANA PARSIFAL (IMP PERU) [SW]**
